"THE LEADER."

A New Star for the Ladies, Under the name, Florida Lady's attire management.

It will not be long before our ladies, with true feminine admiration, will be saying, "how the Florida Lady is so beautiful," as they examine with critical taste the exquisite millinery and other goods of the new store. The Leader will show it may be a little too early to forecast expressions of this nature, but the sincere assurance that Florida Lady gives, leaves no room to doubt but that "The Leader" will be the leader in whatever it undertakes. This lady, under whose management the new store will be, has just returned from the East where she has been buying an entire stock of fashionable millinery, fancy goods, various novelties in notions, ladies' and children's underwear, corsets, hosiery, gloves, headwear, etc., in the selection of which, she says, "I exercised my own skill," and "I select for my pleasure." I want to make the acquaintance of every lady. They will find that I intend to conduct my business upon entirely new methods. While a stranger here, I hope, by fair dealing and conscientious service, to merit the confidence of every lady. "Miss Lady" bears excellent credentials, is a lady of refinement and a business acquaintance.
